Gossip! Gossip! Gossip!

Jessica "I somehow made the Invisible Woman even more lame" Alba and Danny "I killed like, 12 dudes in prison and even though I found Jesus I'm actually tough as shit and will totes fuck your shit up" Trejo are just part of the celebrity circus in town filming Robert Rodriguez's next gore-fest *Machete*. The pair were spotted at Malverde where *Misprint* insiders report "they smoked a bunch of cigarettes and were really, really nice. Also, they were carrying GIANT FUCKING KNIVES AND HACKED THE SHIT OUT OF ALL THE DUMB MOSS AT OUR BAR." Rodriguez, whose entire job now consists of pounding Tecates in his castle, blowing up motorcycles and casting high-dollar actresses in roles as low-rent strippers was nowhere to be found.
